

# Parachute

Zendaya

Like a message in a bottle  
Put my heart out there  
(Ooo, yeah)  
Tried to strum me like a guitar  
Couldn't play the part no  
(Not, yeah yeah)  
So I locked my heart away  
Build up my wall  
Nobody could figure me  
Out at all  
Don't know how you got me, showed  
Me like a prodigy

So I [x2] I just jumped for you  
I jumped with no parachute  
Cause you took away all of my  
Fear of flying and I just  
Jumped for you and jumped  
With no parachute

To good to be true one  
Must I believe it  
(Noo, yeah)  
But you keep on knocking it  
Down brick by brick  
(Ohh, yeah)  
Tried to lock my heart  
Away build up my wall  
Then you came along and  
Torn it down, yeah  
Boy you got me, showed  
Me like a prodigy

So I [x2] I jumped for you  
I jumped with no parachute  
Cause you took away all of my  
Fear of flying and I just  
Jumped for you and jumped  
With no parachute

Cause you took away all of my  
Fear of my flying and I just  
Jumped for you and jumped  
With no parachute

And jumped with no parachute  
Cause you took away all of my  
Fear of flying and I just  
Jumped for you yeah I just  
Jumped for you

So I jumped for you I  
Jumped with no parachute  
Cause you took away all of my  
Fear of flying and I just  
Jumped for you and jumped  
With no parachute

So I jumped for you I  
Jumped with no parachute

Cause you took away all of my  
Fear of flying and I just  
Jumped for you and jumped  
With no parachute
