

# Turn It On

Zendaya

We're so on and off  
Can't keep the beat  
Best friend can be worst enemy  
But we're just gonna let it all go, oh, oh, oh  
Don't have to compete  
Both got that heat  
Let's switch it up, no jealousy  
The spotlight's big enough for us both

So we're just gonna jump and clap  
B-b-bring it back, bring it back  
And we'll dance forever  
Just slide and clap  
You know where it's at, where it's at  
You and me together  
Let's dance it off, turn the music on  
Let's dance it off, turn the music on

Let's go and set it off  
Don't drag your feet  
You're gonna see that you and me  
Together are so ridicu-lou-ou-ou-ous  
Just get out of your seat  
And copy me  
Now every move, so on the beat  
'Cause we're the kind of friends that go ba-ba-back

So we're just gonna jump and clap  
B-b-bring it back, bring it back  
And we'll dance forever (dance forever)  
Just slide and clap  
You know where it's at, where it's at  
You and me together  
Let's dance it off, turn the music on  
Let's dance it off, turn the music on  
Just turn it on

(Ready to dance?)  
(You ready?)  
( 'Cause I'm ready)  
(Let's do this)  
On  
Let's dance it on, turn the music  
On

Just jump and clap  
B-b-bring it back, bring it back  
And we'll dance forever  
Just slide and clap  
You know where it's at, where it's at  
You and me together  
Let's dance it off, turn the music on  
Let's dance it off, turn the music on
