

Let It Spark

Zephania

Brighten up the sky and reach high
It's your time to shine
So let your passion show
Don't hold back
Coz only the brightest stars sparkle
Show them who you really are
Coz you're a star
You're a star hey

You got the heart (you got, you got the heart)
So let it spark (you got to let it spark)
You got the heart (you got, you got the heart)
So let it spark (you got to let it spark)

Show the world how you sparkle
And leave a little glitter wherever you go
Sing to the stars
Feel it from the heart
Spread love with every smile
Don't hold back
Coz only the brightest stars sparkle
Show them who you really are
Coz you're a star
You're a star hey

You got the heart (you got, you got the heart)
So let it spark (you got to let it spark)
You got the heart (you got, you got the heart)
So let it spark (you got to let it spark)

Show the world how you sparkle
And leave a little glitter wherever you go
