

After the Fall

Zero 7

The light's begun to fade away
It's colder close to dawn
I'm looking out into the grey
And I just don't know why I called

Cause I know I shouldn't feel like this forever
But I ain't got a better plan

Oooooh I like it when you call my name
Oooooh but I wish that you would feel the same
Guess I won't need anyone
I won't need anyone at all
After the fall

I guess we'll never know for sure
It's hard to pin you down
My stomach twists
Unsteady gait
Who's to say how far we'll fall

And I know I shouldn't need like this forever
But I ain't got a better plan

Oooooh I liked it when you'd call my name
Oooooh but I wish that you would feel the same
Guess I won't need anyone
I won't need anyone at all
After the fall
Oooooh I liked it when you'd call my name
Oooh I wish you'd do the same
Oooooh I liked it when you'd call my name
So we should do the same
