

Kill Me

Zero 9:36

I ain't got no enemies, so they're obviously not
Try to be a friend of me when I'm obviously hot
I thought I told you, everybody not right for the job
I should've known you would've been the one to skip right to the plot
Fucking up my entrance
Step into the spot
Pray you get to mention my name when you see god
We were holding onto nothing but a couple hundred thousand
Me and no love used to split the profits up and nothings stopped
Now it's just that

You can't keep up
This whole game need us
The last one standing
I somehow manage
I came here still me
I do not feel things
Somebody 'bout it, tell 'em come and kill me

Kill me
Kill me

Last of a dying breed
They can't keep trying me
They can't keep up with me, I think I'm finally free
I paid my dues and nobody noticed
Who thought I'd find the keys?
If I was you, I wouldn't be anything that you're tryna be
How in the fuck
Was down on my luck
Now they following
Now it's just us
Out of the cut
Who got a problem with it
This is a warning to anybody else who locking in
Headshot
Who else thinking they got a shot again

You can't keep up
This whole game need us
The last one standing
I somehow manage
I came here still me
I do not feel things
Somebody 'bout it, tell 'em come and kill me

Kill me
Kill me
