

Stuck In My Ways

Zero 9:36

Stuck in my ways

Past the point of no return
Before we crash, I'll watch it burn
A single voice will kill the noise
It goes down, down low

Stuck in my ways
Lost everything
I don't need a reason that I won't ever change
Drifting away, I can't explain
Anything, everything, I won't be
Stuck in my ways
Stuck in my ways

Ayy
If I'm livin' to die, am I finally livin'?
I reach for the stars and get blind [?]
You're one in your city, I'm one in a million
Let's get it [?] you test me
[?] pretend to me
[?] for us both to be enemies
[?] pressing me, oh my God
'Cause you walked away, it's my only job
That shit what you close to God, hope to God, it will be more than that
'Cause livin' this way, it means more than rap
No taking no further, don't make this no harder for yourself
I pray to my father for more health
Then burst the stars and it don't help
But I won't tell

Stuck in my ways
Lost everything
I don't need a reason that I won't ever change
Drifting away, I can't explain
Anything, everything, I won't be
Stuck in my ways

Stuck in-
Stuck in my-
Ohh, I can't change
Past the point of no return

Stuck in my ways
Lost everything
I don't need a reason that I won't ever change
Drifting away, I can't explain
Anything, everything, I won't be

No taking no further, don't make this no harder for yourself
I pray to my father for more health
Then burst the stars and it don't help
But I won't tell (Stuck in my ways)
No taking no further, don't make this no harder for yourself
I pray to my father for more health
Then burst the stars and it don't help (Stuck in my ways)
