

Take Me Instead

Zero 9:36

What is my free will if I lie helpless?
I want all of the pain, I'm selfish
All my real ones, I know that they felt this
Pain that's endless
I wish death had took me first
With my loved ones written on a T-Shirt
In the clean suit, ridin' in a cheap hearse
Wishin' it was reverse, waitin' for the reapers

Won't you take me instead?
Won't you aim for my head?
If there's heaven waiting they'll beg me for my forgiveness
Won't you take me instead?
When I wake from my rest?
If there's heaven waiting they'll beg me for my forgiveness
(Won't you)
Won't you take me instead?

I was holdin' in my last breath
Foldin' in when all the colder shit in then my life took a fast
left
Watch you bleedin', know the way you seen me like I was half de
ad
But I just couldn't accept
I just couldn't ever, everything was fine with you, but now we'
re past that, but
I would take the pain for you in a heartbeat
To take it from me better bring up an army
Selfishly I thought the hell was serious, just enough for you t
o have to leave it alone
I'm not sorry, I'm not ready to give up this easy
I'll rip my heart out from the front of my chest 'fore I turn m
y back or you don't need me

Won't you take me instead?
Won't you aim for my head?
If there's heaven waiting they'll beg me for my forgiveness
Won't you take me instead?
When I wake from my rest?
If there's heaven waiting they'll beg me for my forgiveness
(Won't you)
Won't you take me instead?

Take me instead, take me instead, take me instead, take me inst
