Tragedy

Zero 9:36

I don't know, I don't

How come everything I love always buries me in my reality?
In my head I make up the ending, odd it always turns out a trag edy
Help me, can you fucking help me? I been all alone if you're as kin' me
Don't run me down, don't run me down

On the road to nowhere
On the low, I wish that you would fuckin' go there with me
Give me strength and pick me up
Yeah, the seven sins, that is in my blood

Watch me overdose
Show you everything I'm hiding, shit that no one knows
I can see the future spiraling until we comatose
I, I, I don't know what I'd like to know

How come everything I love always buries me in my reality?
In my head I make up the ending, odd it always turns out a trag edy
Help me, can you fucking help me? I been all alone if you're as kin' me
Don't run me down, don't run me down

Leave myself and I can't set a damn thing straight
Another night I wish it'd never end this way
It's hard to fill the void when you can't escape
Ain't a damn thing change

Oh, watch me overdose
Show you everything I'm hiding, shit that no one knows
I can see the future spiraling until we comatose
I, I, I don't know what I'd like to know

How come everything I love always buries me in my reality?
In my head I make up the ending, odd it always turns out a trag edy
Help me, can you fucking help me? I been all alone if you're as kin' me
Don't run me down, don't run me down

Help me, can you fucking help me? I been all alone if you're as kin' me
Don't run me down, don't run me down
