

Confusion

Zhané

Confusion, it's haunting me
I don't know what to do
They're telling me that I should leave you
Just can't stop loving you

When you love me (when you love me)
Feels like heaven
Love surrounds me (loves around me boy)
Don't stop, no, never

Your passion, it moves through me
And it brings me such delight
Our love's forbidden, boy, can't you feel it
It's so wrong, but it feels so right

When you love me (when you love me)
Feels like heaven
Love surrounds me (loves around me boy)
Don't stop, no, never

When you love me, arms around me
I melt inside your ecstasy
When you love me, arms around me
My feelings start confusing me

When you love me, arms around me
I melt inside your ecstasy
When you love me, arms around me
My feelings start confusing me

When you love me (when you love me)
Feels like heaven
Love surrounds me (loves around me boy)
Don't stop, no, never

Never, babe
