

Keep It Coming

Zhavia Ward

Trouble in my head
Problem in my bed
(You know that it wasn't worth it
All the shit under the surface)

Everything she said
Saw it in the end
You know
That it was all you 'cause

Life was so low and the tables
Have turned now I
Don't have no issues, see why
There ain't no going back 'cause

When I met you yeah I crashed my rover
Life's been better since you fucked me over
You know I didn't see it coming
Thought you were what I always wanted 'cause

When I left you yeah my heart went sober
20 days and yeah I found my closure (Oh oh oh)
Karma keep it coming yeah (Oh oh oh)
Keep it coming yeah

Yeah you bet I'm better
Switch up like the weather
Cap like upper case letter
Had to let him go
I be going up lately
Ain't missing your ass, you crazy
Playing me (Mhm)
You was a cheater

You had me fucked up
Hope you ain't doing her the same
You a lost cause
All I needed was some change
You can have all that shit back
Don't care, I just wanna stack
I pull up in my Maybach
C'est la vie, babe

Life was so low and the tables
Have turned now I
Don't have no issues, see why
There ain't no going back 'cause

When I met you yeah I crashed my rover
Life's been better since you fucked me over
You know I didn't see it coming
Thought you were what I always wanted 'cause

When I left you yeah my heart went sober
20 days and yeah I found my closure (Oh oh oh)
Karma keep it coming yeah (Oh oh oh)
Keep it coming yeah

(Oh oh oh)
Keep it coming yeah
(Oh oh oh)
Keep it coming yeah

(Oh oh oh)
Keep it coming yeah

When I met you yeah I crashed my rover
Life's been better since you fucked me over
You know I didn't see it coming
Thought you were what I always wanted 'cause

When I left you yeah my heart went sober
20 days and yeah I found my closure (Oh oh oh)
Karma keep it coming yeah (Oh oh oh)
Keep it coming yeah
