

Bleed

Zhu

Every time I close my eyes
I see you
Every time you get me high
I feel you
Every time I cross the line
I need you
Every time you cut like knives
I bleed for you

I bleed for you

I can feel all the weight
I can see on your face
That love is painful

Compromising your ways
Reconciling your faith
A fallen angel

Lemme me focus on us
Making no promises
But know I'm capable

Thrill is our only drug
Once you tasted the blood
It's unbreakable

Would you bleed, bleed for me, bleed for me
Would you bleed, bleed for me, bleed for me
Would you bleed, bleed for me, bleed for me
Would you bleed, bleed for me, bleed for me

(I lose my mind)
(I lose my)
(I lose my mind)
(I lose my)
