

# Blessings

Zhu

All my life  
I tried to find the purpose of my life  
Blessings I had earned them in my life  
Lessons I had learned them through my life  
I know

All my life  
I tried to take the harder way  
All my life  
I tried to take your heart away  
All my life  
I always want a better way  
Every day

All my life  
I tried to take the harder way  
All my life  
I tried to take your heart away  
All my life  
I always want a better way  
Every day

All of the blessings  
I love to see us grow  
It wasn't ever easy coming down this road  
All of the blessings  
I had to give up control  
I guess I had to go with the flow  
All of the blessings  
It made me vulnerable  
We were 21 just a moment ago  
All of the blessings  
They never want to believe  
All I wanted was to be me

Every time I think back, think back, think back  
Everything I drink that, drink that, drink that  
Every night I think back, think back, think back  
Every time I keep track, keep track, keep track

Every time I think back, think back, think back  
Everything I drink that, drink that, drink that  
Every night I think back, think back, think back  
Every time I keep track, keep track, keep track

I'm a hitman  
I got hits man  
I was in the shit man  
With a couple shit plans  
I might had a whiplash  
From the quick cash  
Parties with the big flash  
Made a big splash  
I did all the beats then  
I didn't wanna pretend  
Why they got no demand  
Why you in a deep trance

You know we got big plans  
You know we a big band  
Blessings how it began

All of the blessings  
I love to see us grow  
It wasn't ever easy coming down this road  
All of the blessings  
I had to give up control  
I guess I had to go with the flow  
All of the blessings  
It made me vulnerable  
We were 21 just a moment ago  
All of the blessings  
They never want to believe  
All I wanted was to be me

Let the blessings come to me  
Let the blessings come to me  
Let the blessings come to me

Let the blessings come to me  
Let the blessings come to me  
Let the blessings come to me

Every time I think back, think back, think back  
Everything I drink that, drink that, drink that  
Every night I think back, think back, think back  
Every time I keep track, keep track, keep track

Every time I think back, think back, think back  
Everything I drink that, drink that, drink that  
Every night I think back, think back, think back  
Every time I keep track, keep track, keep track
