They told me it was gonna be a lonely lone way down
They told me all the people wanna see me back in town
I told you I had all these feelings for you in your mind
You told me you would always be there 'til the end of time

Let me lay you down
Take my time with your body
Let me lay you down
I wanna love somebody
Let my lay you down
Take my time with your body
Let me lay you down
I wanna love somebody

I think I'm losing my patience
I see the memories fading
Can't take the distance I'm waiting for ages
I know you work them hours
But I put in mine
Not your play thing on the side
You say you'll be back this time
It's been lonely enough

Let me lay you down
Take my time with your body
Let me lay you down
I wanna love somebody
Let my lay you down
Take my time with your body
Take my time with your body
Let me lay you down
I wanna love somebody

It's incredible
Unforgettable
Can't let it go
Can't let it go

Unconventional
Unintentional
Just take it slow
Take it slow

It's sensual
Phenomenal
Let it grow
Just let it grow

I'm unstoppable
Just loving you
Just lemme know
Just lemme know
Let me lay you down
