

# Exhale

Zhu

Exhale, exhale it  
Exhale, exhale it  
Exhale, exhale it

Breathe in and then breathe out  
Slow down, like your body all round  
Breathe in and then breathe out  
Exhale, can you feel it come down?

Breathe in and then breathe out  
Slow down, like your body all round  
Breathe in and then breathe out  
Exhale, can you feel it come down?

Exhale, exhale it  
Exhale, exhale it  
Exhale, exhale it  
Exhale, exhale it

We only ever loved  
When is the moments that you need me?  
We always felt the rush  
When every time feels so easy  
The way you're moving your body  
Feels like a blacked out story  
'Cause people faded as hell now  
It's time to exhale now
