Ghost In My Bed

Zhu

There is a ghost lying in my sheets
I'm not alone when I sleep
I hear the wall trying to speak
There's something haunting me
She said

There's a ghost in my bed
And I don't know if he's alive or dead
There's a ghost in my bed
Every night I got some dread she said
There's a ghost in my head
She don't know if I come back like you said
There's a ghost in my head
My bed, my bed, my bed

She said baby when you're gone, I'm scared
She said baby when you're gone, I'm scared
She said baby when you're gone, I'm scared
And I'll never ever see you again

There is a ghost lying in my sheets
I'm not alone when I sleep
I hear the walls trying to speak
There's something haunting me
She said

There's a ghost in my bed
And I don't know if he's alive or dead
There's a ghost in my bed
Every night I got some dread she said
There's a ghost in my head
She don't know if I come back like you said
There's a ghost in my head
My bed, my bed, my bed

There's a ghost in my bed
There's a ghost in my bed

She said baby when you're gone, I'm scared
She said baby when you're gone, I'm scared
She said baby when you're gone, I'm scared
And I'll never ever see you again
