

# Monster

Zhu

I fell in love when you recognized my darkness  
Made friends with all my monsters  
And you still wanna stay, still wanna stay

I fell in love when you recognized my darkness  
Made friends with all my monsters  
And you still wanna stay, still wanna stay

Now you've got me in my deep down  
In this life the only thing I need now is you  
Show me what it means to feel now  
In this life the only thing I need now is you

And I wanna thank you  
No, I don't think you know  
Now you've got me in my deep down  
In this life the only thing I need now is you

I fell in love when you recognized my darkness  
Made friends with all my monsters  
And you still wanna stay, still wanna stay

I fell in love when you recognized my darkness  
Made friends with all my monsters  
And you still wanna stay, still wanna stay

Now you've got me in my deep down  
In this life the only thing I need now is you  
Show me what it means to feel now  
In this life the only thing I need now is you

And I wanna thank you  
No, I don't think you know  
Now you've got me in my deep down  
In this life the only thing I need now is you

I fell in love when you recognized my darkness  
Made friends with all my monsters  
And you still wanna stay, still wanna stay

And you recognized my darkness  
And all of my monsters  
And you wanna stay  
You wanna stay
