They think you're a psycho  
They think you're a psycho  
They think you're a psycho  
They think you're a psycho  
They think you're a psycho  
They think you're a psycho

They think you're a psycho, psycho  
I say, so what?  
They think you're a psycho, psycho  
But I'm in love  
They think you're a psycho, psycho  
(But I'm in love)  
They think you're a psycho, psycho  
(But I'm in love)

They think you're a psycho, psycho  
I say, so what?  
They think you're a psycho, psycho  
But I'm in love  
They think you're a psycho, psycho  
I say, so what?  
They think you're a psycho, psycho  
But I'm in love

They think you're a psycho  
They think you're a psycho

They think you're a psycho  
If you really want psycho  
They think you're a psycho  
If you really want psycho

If you really want psycho  
Turn the lights down  
If you really want psycho  
I just wanna get inside

If you really want psycho  
Turn the lights down  
If you really want psycho  
I just wanna get inside

If you really want psycho
