

# Save Me

Zhu

I'm standing in the desert  
I have nothing  
I'm scared  
You can't run  
Save me  
Save me  
Save me

Somebody save me  
Somebody save me  
Somebody save me  
Somebody save me  
Somebody save me  
Somebody save me  
Somebody save me  
Somebody save me

Save me, save me, save me  
Save me, save me, save me  
Save me, save me, save me  
Save me, save me, save me  
Save me, save me, save me  
Save me, save me, save me  
Save me, save me, save me  
Save me, save me, save me

Somebody save me from myself  
Somebody bring me from my shelf  
Somebody wake me from this spell  
Show me how to love again  
Somebody save me from myself  
Somebody bring me from my shelf  
Somebody wake me from this spell  
Show me how to love again

Somebody save me  
Somebody save me  
Somebody save me  
Somebody save me

Somebody save me from myself  
Somebody bring me from my shelf  
Somebody wake me from this spell  
Show me how to love again  
Somebody save me from myself  
Somebody bring me from my shelf  
Somebody wake me from this spell  
Show me how to love again

Somebody save me  
Somebody save me  
Somebody save me  
Somebody save me  
I'm standing in the desert  
Somebody save me  
I have nothing  
Somebody save me

I'm scared  
Somebody save me  
I turn around and see faces  
They all cry out, "You can't run"  
But I want to run, I wanna run away from myself  
And run away from it all  
This storm just swallowed me  
Save me
