

chocolate

Ziggy Alberts

She kissed me
Like we just met
And all she knew about me
Is what I've said to her
Here in the bathtub this evening
Chocolate for two

She kissed me
Like we just met
And I knew about you
Is what you've said
And you told me your name
And I've never seen eyes so blue

I need more time off with you
To turn you on
I want to wake up without the alarm
A thousand eyes on me constantly
But I just want you
And I just want two
I need more time off with you
To turn you on

She kissed me
Like we just met
On the street as I walked over to the bookstore
And poured you some water, a gesture
Like gentlemen do

She kissed me
Like we just met
Via wind, sand and stars
We danced at the northern
And slept on the beach hoping rangers
Would choose not to come

I need more time off with you
To turn you on
And I want to wake up without the alarm
A thousand eyes on me constantly
But I just want you
I just want two
I need more time off with you
To turn you on

I didn't sleep a single wink
On the first night
I promised you it's not your fault and I tried
It feels like there's fire on my heels
Wherever I go

I wake up in the morning
Laying here next to you
I asked you if I snored
You laughed and I knew
Feels like there's a fire on my heels
Wherever I go

I need more time off with you
To turn you on
I want to wake up without the alarm
A thousand eyes on me constantly
But I just want you
And I just want two
'Cause I need more time off with you
To turn you on
Hmmm
