

# Feeling Blue

Ziggy Alberts

I'm not convinced in all the ways I've been livin' now  
Feel like I'm at war with within myself  
Sometimes I look within, I see a deck of red flags  
Smart enough to see, but, but never to tell  
Got body doubts and Hennessy, mental breakdowns back in '17, ah  
Everything I thought I knew  
Got demi-wolves to put on a leash, droppin' Western bombs and c  
all it peace  
Everything I thought I knew

Been feelin', I've been feelin' blue  
Caught in the currents of the waves I've been passin' through,  
mm

I'm not convinced in all the ways that we're livin' now  
Money's made on debt of earth and rich and poor  
Sometimes I look around, like me, the world's gone mad  
Sick from all the brandin' the lack of soil  
Got body doubts and heresy, mental breakthroughs here in '23, o  
h yeah  
Everything I thought I knew  
Got demigods we choose to leave, World War III over identity, a  
h  
Everything I thought we knew

Been feelin', I've been feelin' blue  
Caught in the currents of the waves I've been passin' through  
Feelin', I've been feelin' blue  
Caught in the currents of the waves I've been passin' through  
Mm
