

# I BELIEVE

Ziggy Alberts

When the day's long  
Keep your heart strong  
You don't know how much we need you  
And if you fall down, get up  
The world it needs your smile my brother

I believe  
I believe  
I believe  
I believe  
That everything will be alright  
I can see  
I can see  
I can see  
I can see  
That things are healing with time  
I believe  
I believe  
I believe  
I believe  
Everything will be alright  
Heart covers the distance  
Over everything that's missing  
I know heart covers the distance  
Over everyone who's different  
It'll be alright  
I,I  
I

Got these four walls  
That sometimes make you feel small  
But look inside and know that you are free to roam  
And if you fall down, you gotta get up  
The world it needs your smile my darling

I believe  
I believe  
I believe  
I believe  
That everything will be alright  
I can see  
I can see  
I can see  
I can see  
Things are healing with time  
I believe  
I believe  
I believe  
I believe  
That everything will be alright  
Heart covers the distance  
Over everything that's missing  
I know heart covers the distance  
Over everyone who's different  
It'll be alright  
I,I  
I,

I believe  
I believe  
I believe  
I believe  
Everything will be alright  
I can see  
I can see  
I can see  
I can see  
Things are healing with time  
I believe  
I believe  
I believe  
I believe  
Everything will be alright  
Heart covers the distance  
Over everything that's missing  
I know heart covers the distance  
Over everyone who's different  
It'll be alright  
I,I  
Is
