

letting go

Ziggy Alberts

We cut through glaciers to coastlines
By the afternoon
And rivers cut through the gorge and
The waters clean and the waters smooth
See I've been trying to move along, move along
Consumed in keeping strong for far too long
When all I had to do was rest my head
And rest my heart
You don't have to feel like this, no

I'm letting go
See I've been trying
To hold on, hold onto this fear all alone
I'm letting go
See I've been trying
To hold on, hold onto this fear all alone
And it doesn't feel right anymore

And I came back to rest
And work along this canvas line
We can sleep to work at better rest at night
With less upon my mind
See I've been trying to move along, move along
Consumed in keeping strong for far too long
When all I had to do was rest my head
And rest my heart
And you don't have to feel like this, no

I'm letting go
See I've been trying
To hold on, hold onto this fear all alone
And I'm letting go
See I've been trying
To hold on, hold onto this fear all alone
And it doesn't feel right anymore
Anymore, anymore, anymore
Anymore, anymore, anymore

I don't want to do this
On my own, on my own, love
You don't want to do this
On your own, on your own, love
We don't want to do this
On our own, on our own, love
We don't have to do this
On our own, on our own

I'm letting go
See I've been trying
To hold on, hold onto this fear all alone
And I'm letting go
See I've been trying
To hold on, hold onto this fear all alone
And it doesn't feel right anymore
