

Settle Down

Ziggy Alberts

And the neoprene on my skin
A familiar warmth to the cold
Making memories out of dusty roads
Out of dusty roads
So when the winter comes
When the winter comes around love
I'm going to find myself a good woman
And then I'll settle down

And the taste of the nicotine on your tongue doesn't seem so bad anymore
But the things that it's doing to your lungs is kinda hard to ignore

So when the winter comes
When this winter comes around
I'm going to find myself a good woman
Then I'll settle down
When winter comes around

And the neoprene on your skin
A familiar warmth to your tones
But I'm asking reasons why
Despite all of my best efforts and
I was only gone days at a time but you

So when the winter comes
When the winter comes around love
Well I'm going to find myself a good woman
And then I'll settle down

And the taste of the nicotine on your tongue doesn't seem so bad anymore
But the things that it's doing to your lungs is kinda hard to ignore

So when the winter comes
When the winter comes around
I'm going to find myself a good woman
Then I'll settle down

When winter comes around
I'm going to find a good woman
Settle down, when winter comes around

I'm gonna find a good woman
Settle down, when winter comes around
I'm gonna find a good woman
Settle down, when winter comes around
I'm gonna find a good woman
Settle down, when winter comes around
