

Start Over

Ziggy Alberts

See I think I drowned the other day
My heart was torn, but my body was set to leave it all
And I took her hand to say as much I would love just to stay here
There's things I owe to the world above, to the world above
Can I tell you all the things that I've learnt out on the streets
Is angels come in forms of dogs and girls babies I meet
Can I tell you all the things
I ever learnt in love was how to howl
Now that I prefer to feel it all, to feel it all

So if we could start over, somewhere 10 feet underwater
If we could start over again
So if we could start over, somewhere 10 feet underwater
Would we start over again, again
See if we had gills we never would have learnt how to swim
How to swim, how to swim

And it breaks my heart everyday
Seeing things that I wish weren't going on
But before I can give you depth there is 6 or 7 seas
Left between who I am and who, I will become
Who I will become

Can I tell you all the things that I've learnt out on the streets
Is angels come in forms of dogs, and girls babies I meet
Can I tell you all the things
I ever learnt in love was how to howl
Now that I prefer to feel it all, to feel it all

So if we could start over, somewhere 10 feet underwater
If we could start over again
So if we could start over, somewhere 10 feet underwater
Would we start over again, again
See if we had gills, we never would have learnt how to swim
How to swim, how to swim

And there's things I've done that I'm not proud of
Like going to SeaWorld, or being on my phone when I'm driving alone
But if I need, and if we need a way out you can take my hands drag me down,
drag me down
Lover you can lift me up

Just say love I need you more (I need you more)
Than all the oxygen that your lungs adore
Just say love that I need you more (I need you more)
Than all the oxygen that your lungs adore
C'mon now
Just say love that I need you more (I need you more)
Than all the oxygen your lungs adore
C'mon now
Just say love that I need you more (I need you more)
Than all the oxygen your lungs adore

If we could start over, somewhere 10 feet underwater
Would we start over again, again
So if we could start over, somewhere 10 feet underwater
Would we start over again, again

See if we had gills, we never would have learnt how to swim
How to swim, how to swim
