

# TATTOOS

Ziggy Alberts

The seasons are beginning to change  
I've gone nowhere  
el Niña seems to be here to stay  
Carbon balms, cymatical healing  
The good old days

Picking up the pieces  
Trying to figure out  
Been burning so much sage  
Nearly burning down the house  
If I could get your tattoos  
Would you see me different?  
Talking out loud now

Picking up the pieces  
If I get your tattoos  
Would you see me different?  
Talking out loud now  
Chasing inner meaning  
If I get your tattoos  
Would you see me different?  
Talking out loud now

I used to be in love with adventure  
A good girl  
We used to spend more time under stars  
We're wanting change  
but doing the same things  
Burning fast

Picking up the pieces  
Trying to figure out  
Mycelial relief, ceremonial cacao  
If I can get your tattoos  
Will you see me different?  
Talking out loud now

Picking up the pieces  
If I get your tattoos  
Would you see me different?  
Talking out loud now  
Chasing inner meaning  
If I get your tattoos  
Could you see me different?  
Talking out loud now

Picking up the pieces  
If I get your tattoos  
Would you see me different?  
Talking out loud now  
Chasing inner meaning  
If I get your tattoos  
Would you see me different?  
Talking out loud now
