

# Time Alone

Ziggy Alberts

What we've found in this time alone, time alone  
From the room to grow and some stones to throw  
Was a little love in the wood carved from the tree tops  
A little love in the ocean and the salty skies  
So I stood by the trees here to learn some wisdom  
So speak clear, speak clear now  
If you can be clear, be clear  
How you stood with the silence

Singing grow  
So let the wind blow, we can let the wind blow  
Grow my love  
Singing grow  
So let the wind blow, let the wind blow  
This time alone, this time alone now

So I'm gonna let my heart walk further then my feet  
So my feet can follow  
So my feet can follow  
And I'mma let my heart walk further than it needs to here  
And so when I stood by these trees here to learn some wisdom  
So speak clear, speak clear now  
And if you can be clear, be clear  
How you stood with the silence

Singing grow  
So let the wind blow, we can let the wind blow  
Grow my love  
Singing grow  
So let the wind blow, we can let the wind blow  
This time alone, this time alone now

So let's find some beauty in the silence, before we go  
And some beauty in the silence before we leave  
Because well, I said nothing makes me nervous  
I said nothing makes me nervous, like you  
And so let's find some beauty in the silence  
Before we go and some beauty in the silence before we leave  
'Cause nothing makes me nervous  
I said nothing makes me nervous like you close to me

Singing grow  
So let the wind blow, let the wind blow  
Grow my love  
Singing grow  
So let the wind blow, let the wind blow  
Grow my love  
Singing grow, let the wind blow, let the wind blow  
Grow my love  
Grow  
Singing grow (Hey!)
