

Waterside

Ziggy Alberts

What these chapters showed us well
And what these chapters showed us how
And from all of the stones that cut our feet walking to the sea
Can teach us to be softer as our lovers now
Can teach us to be softer as our lovers now

To be lost in your loving now
To be drowning by the waterside
But I'm not lost in your loving now, no
I'm not drowning by the waterside
I'm not lost in your loving now, no
I'm not drowning by the waterside
I'm just in love here by the waterside

Cause I want to be your bad habit when the night's done
When everybody's gone home and we're sober, you know love
Cause I want to be your bad habit when the night's done
When everybody's gone home and we're sober love

And these chapters taught us well and these chapters taught us how to
know
From all this talk of the terrors in the night
And these wolves in the dark but we've come too
I said we've come too far I said we've come too far dear not to be
Lovers now, to be lovers here, to be lovers dear no
And we cannot drown I said we will not drown here because
We are made of water, we are made of water dear

To be lost in your loving now
To be drowning by the waterside
But I'm not lost in your loving now no
I'm not drowning by the waterside
But I'm not lost in your loving now no
I'm not drowning by the waterside
I'm just in love here by the waterside

'Cause I want to be your bad habit when the night's done
And when everybody's gone home and we're sober, you know love
'Cause I want to be your bad habit when the night's done
When everybody's gone home and we're sober

Love

Because I want to be your bad habit when the night's done
When everybody's gone home and we're sober, sober love
Because I want to be your bad habit when the night's done
When everybody's gone home and we're sober love
