

# Friday's On

Ziggy Marley

To all the youths dem  
Standing up to gun violence  
Standing up to man made climate change  
Power to the children

Out of school  
Into the streets  
Friday's on  
The vibe is real  
Out of school  
Into the streets  
Friday's on  
The need is real

Let the feeling take you away  
Let the feeling take you away, ye-ah  
Let the feeling take you away  
Let the feeling take you away, ye-ah, ye-ah

Hold them feet to the fire  
Money money money  
Is all them desire  
Selling out the future's rights  
Selling out future lives, yea  
Hold them feet to the fire  
Money money money  
Build dem empire  
Selling out the future's rights  
Selling out future life, so

Friday's on  
Unuh hear me now  
Friday's on

Into the streets

The vibe is real  
Out of school  
Into the streets

Let the feeling take you away (oh, don't you know)  
Let the feeling take you away, ye-ah (the need is real)  
Let the feeling take you away (Friday's on)  
Let the feeling take you away, ye-ah, ye-ah (now)

Raise our voices higher  
Demanding the justice that we desire  
Stand up to climate change  
A new generation came, yea  
Raise our voices higher

Demanding the justice that we desire  
Stand up for political change  
The new generation came, oy
