

Good Time

Ziggy Marley

Though the world is cruel and blind
Let's have a good time
Though the world is cruel and blind
Let's have a good time
Get those problems of your head
Put your mama to bed
But don't stray too far from reality
Or you will live in a dream world
Dreaming of things that there ain't no possibility
Who we, believe me let's have a nice grooving time
But don't go too far from the truth in your mind
'Cause you'll drink and drive, and then you'll fly too high
And so you'll pay the price for just feeling nice
Though the world is cruel and blind
Let's have a good time
Though the world is cruel and blind
Let's have a good time
So many things to foresee, we were not born to live this way
We were born having fun in the jungle of grace
With plenty food to eat and plenty drink to drink
So you know what I mean when I say
Liberate yourself from the state that you're in
Don't get involved in that, everywhere it stink, it stink, it stink
Me say to dance if you have to but don't take no chance
To be deceived, yeah
Though the world is cruel and blind
Let's have a good time
Though the world is cruel and blind
Let's have a good time
The bass is heavy the drummer is steady
Ooh, rhythm runs and it got you on the floor
Cry out for more that's the only way you gonna know
For sure you need some more
Though the world is cruel and blind
Let's have a good time
Though the world is cruel and blind
Let's have a good time
Your mind is your mind, I mean your body and your soul
Don't let material things they must not keep you down
A get on up, a get on up, I mean you do what I ya say
I say do what you do, but don't get carried away
Let's have a good time, yes educate oneself
Let's have a good time, and liberate oneself
Don't be no fool today, don't be so cruel today
Let's us build up the place for the human race
Though the world is cruel and blind
Let's have a good time
Though the world is cruel and blind
Let's have a good time
Though the world is cruel and blind
Let's have a good time
Though the world is cruel and blind
Let's have a good time
The bass is heavy the drummer is steady
Yes it run and got you on the floor
Cry out for more that's the only way you gonna know
For sure, we need some more

Though the world is cruel and blind
Let's have a good time
Though the world is cruel and blind
Let's have a good time
