

# Today

**Ziggy Marley**

It's give a little more to the Earth today  
Let's forget them politicians today  
Put down your weapons of war today  
Let's just love everyone love  
Today

Tomorrow will never come  
Tomorrow is never here  
So don't you put off what we can do right now  
'Cause tomorrow will never appear  
Today

Who will forget the value of money today  
Remember what life is worth  
Is this the human race  
Put all material wants behind today  
Let's just seek to be spiritually divine  
Today

So don't you take the negative they're sending  
Never you pat from this positive something  
Share the joy my love is giving  
So sweet divine in tune with mine life worth living  
Today

Why don't you give a little more to the Earth today  
Let us forget them politician today  
Put down your weapons of war today  
Let's just love everyone love  
Today
