

## In The Sky

Zilch

I thought about it for a while, and let in questions for the as  
king,  
She asked if God was just a slob like us,  
Maybe something there is lacking.

My God's not it the sky; he's here with you and I,  
Stands me if I die; my God's not in the sky.

Let me tell you all my thoughts on God, 'cause I just met with  
him this morning,  
He gives me peace, so I can wear a smile while others drown in  
melancholy, bitter, sadness - all this man is.

My God's not it the sky; he's here with you and I,  
Stands me if I die; my God's not in the sky, yeah,  
My God's not it the sky; he's here with you and I,  
Stands me if I die; my God's not in the sky.

And I know you feel the need to know for sure,  
You want to find him; he will find you.

My God's not it the sky; he's here with you and I,  
Stands me if I die; my God's not in the sky, oh yeah,  
My God's not it the sky; he's here with you and I,  
Stands me if I die; my God's not in the sky.
