Help me  
Everybody loves me as a keepsake  
Walkin' through the taller grass  
Save me  
From myself, I don't know my own mind state  
How long is this going to last?  
'Cause I don't wanna be alone, alone  
'Cause I don't wanna be alone, alone  
'Cause I don't wanna be alone, alone  
'Cause I don't wanna be alone, alone

Alone, alone, alone, alone  
Alone, alone, alone  
'Cause I don't wanna be alone, alone

Hello, is anybody out there?  
Paging in from the mars rover  
Hello, is anybody conscious?  
Paging in from all them loners  
Suicide on my mind all day  
Can't figure out what's wrong with me  
Why does nobody really get along with me?  
Can someone please sing a goddamn song to me?  
That goes

Twinkle little star, it will be okay now  
Twinkle little star, it will be okay now  
Twinkle little star, it will be okay now  
Twinkle little star, it will be okay now

Help me  
Everybody loves me as a keepsake  
Walkin' through the taller grass  
Save me  
From myself, I don't know my own mind state  
How long is this going to last?  
'Cause I don't wanna be alone, alone  
'Cause I don't wanna be alone, alone  
'Cause I don't wanna be alone, alone  
'Cause I don't wanna be alone, alone
