

## Outer Space

ZillaKami

Went to Hell and back  
Now everything won't be what the fuck it was  
Left a part of me in outer space  
Now I'm not what the fuck I was

Cut wide open, now I'm bleedin'  
Now I'm open, keep sowin'  
Cut wide open, now I'm bleedin'  
Now I'm open, keep sowin'

Went to Hell and back  
Now everything won't be what the fuck it was  
Left a part of me in outer space  
Now I'm not what the fuck I was

All my spirits blown away like leaves in fall or maybe spring  
I got problems with myself and holding onto little things  
All my hope was washed away like brittle coral in a wave  
I got problems with myself and holding onto little things

Went to Hell and back  
Now everything won't be what the fuck it was  
Left a part of me in outer space  
Now I'm not what the fuck I was
