

feel like we used to

Zimmer90

Are you with me?
When I fall into the sun

We were children
When we taught ourselves to run

All that I know I should go
To a place where rivers flow

Is it home?
Is it right?
Is it wrong?

I wanna feel
Feel like we used to
But now I'm all in my own
I wanna dance
Dance just like you do
But now I'm dancing alone
Are you with me?
Are you with me?
I wish I knew I was wrong
I wanna feel
Feel like we used to
But now I'm all in my own

Quiet water
You were asking me to change
I remember how it all got
Weird and strange
Behind the doors
There's so much more
There is so much more
The evening sun, the morning comes
What have I done?

I wanna feel
Feel like we used to
But now I'm all in my own
I wanna dance
Dance just like you do
But now I'm dancing alone
Are you with me?
Are you with me?
I wish I knew I was wrong
I wanna feel
Feel like we used to
But now I'm all in my own

Oh, when you cry
It's alright
It's alright
Oh, you've got time
It's alright
It's alright

I wanna feel

Feel like we used to
But now I'm all in my own
I wanna dance
Dance just like you do
But now I'm dancing alone
Are you with me?
Are you with me?
I wish I knew I was wrong
I wanna feel
Feel like we used to
But now I'm all in my own
