

# For You

Zimmer90

I'm up, I'm up again  
Can't stop, can't stop my head  
Stop my head  
It's dark inside my room  
My sun has set too soon  
Set too soon

And I did it for you  
Everything for you  
I did it for you  
Everything for you

I'm stuck, I'm stuck again  
Don't trust, don't trust your friends  
Trust your friends  
I was so lonely, you weren't there  
Different faces, nobody cared  
In a world full of love, full of lies

And I did it for you  
Everything for you  
I did it for you  
Everything for you  
And I did it for you  
Everything for you
