# Lonely

**Zimmer90**

I was hopin' to find you in the dark
I was thinkin' about us while the future turned to past
Dancing alone, through the night, through it all

Lonely
I was alone inside the dark
No one to hold me
No one to talk, no one to touch
Dancing alone through the night, through it all
Feel the waves in your bones 'til the moment is over

Take a look at your future, you will love it
Take a look in my mind, and the moment is over
The moment is over

Lonely
I was alone inside the dark
No one to hold me
No one to talk, no one to touch
Dancing alone through the night, through it all
Feel the waves in your bones 'til the moment is over
