

Sleepless

Zimmer90

Morning light
Evening sun
All in all we're just some figures
Trying to find
Peace of mind
In the pieces by the lake

Getting up
Falling down
Take my hand it's coming closer
In the clouds don't speak it out
Don't leave me now...

I feel raindrops my skin
It feels like worlds between

Morning light
Evening sun
All in all we're just some figures
Trying to find
Peace of mind
In the pieces by the lake

Getting up
Falling down
Take my hand it's coming closer
In the clouds don't speak it out
Don't leave me now...
