

## So Good

Zimmer90

I'm alone in the pouring rain  
And you park the car in the middle of the street  
When the world is too loud  
We will make no sound  
'Cause no one else is here  
Are we the only ones who gave it all away?

You  
You feel so good  
You  
You feel so good

I'm alone in the night  
We get close from time to time  
I hear your words in my mind  
And they say

You  
You feel so good  
You  
You feel so good

Running down, I'm running down, the city never sleeps  
And no one else, and no one else is telling me to leave  
In my dreams  
I miss you

I'm alone in the night  
We get close from time to time  
I hear your words in my mind  
And they say

You  
You feel so good  
You  
You feel so good  
You  
You feel so good  
You  
You feel so good

I'm alone in the night  
We get close from time to time  
I hear your words in my mind  
And they say

You  
You feel so good  
You  
You feel so good

Feel so good
