

what a life

Zimmer90

I feel whole at the coastline
At a place that nobody knows
Had to go, it just feels right
Can you give me a moment alone?

All I know, I let it go
Just for a moment, now I'm losin' control
All I know, I let it go
Finally on my own

What a life, what a life
I can see it when I look in your eyes
What a life, what a life
I can feel it runnin' through me tonight

(What a life
What a life
What a life
What a life)

There's a boy on a mountain
But at night, he's scared of the dark
Paranoid, you have found him
He's swimmin' in a river of love

What a life, what a life
I can see it when I look in your eyes
What a life, what a life
I can feel it runnin' through me tonight

I guess you're out there
Guess you're out there lookin'
I guess you're out there

What a life, what a life
I can see it when I look in your eyes
What a life, what a life
I can feel it runnin' through me tonight

(What a life
What a life
What a life
What a life)
