

Last Time

Zinoleesky

Say, I've been tryna live
Niphkeys

Say, I've been tryna live
I've been tryna focus
But nobody know us
Gave me love at no cost
Say the rest na bonus, uhn
What you do me no normal
I've been thinking of someone
Can't say "Baby, what's up" now
Shey before I see you, o do la, hmm

Like igbo na ganja, uhn, uhn
Like shayo na bastard, uhn, uhn
Like cigar na cancer
Olosho na person daughter
All the things you do me I gun down
When den thief catch olopa, eh
Say natural disaster
What I got and what I ordered

I remember when I saw you last time
You said that was the last time
Until I saw you last night
And then we had a nice time, uhn
Baby girl, it's high time
I have to know my crime
Would you let me use a lifeline?
'Cause these feeling's for a lifetime, yeah

Don't ruin my happiness
You're the one who's starting this
How I feel about my feelings is my business not yours
But you're bad like your friend
That's why you both move together
I go swear I got you to the end
I swear I'll be your umbrella
I don't wanna get hold by the neck
With my little few, I'm blessed
I don't wanna be by myself
'Cause I'm a mess without you

Like igbo na ganja, uhn, uhn
Like shayo na bastard, uhn, uhn
Like cigar na cancer
Olosho na person daughter
All the things you do me I gun down
When den thief catch olopa, eh
Say natural disaster
What I got and what I ordered

I remember when I saw you last time
You said that was the last time
Until I saw you last night
And then we had a nice time, uhn
Baby girl, it's high time

I have to know my crime
Would you let me use a lifeline?
'Cause these feeling's for a lifetime, yeah

If no be God, if no be for Jésus
You see all I get the information
That satan wan give me hypertension
But my money don go jollificate
Huh, I need something to take all this pain away
Wanna get in a bolt and sail away
I was hoping I'll see once again
I was hoping I'll see y'all again
