

Geek to the Beat

Zion I

You over civilized, trapped in your suit and tie
you should relax a little, you should check out my riddle
please dont apologize, so scary all the time
relax your body let the 808's take your mind
you way too watered down, i need it uncut
dont play your flashy babalon ill have you fucked up
id rather rap arouse, too scared to shut your mouth
my feet be on the couch, like its my mamas house
just try to kick me out, i kicks a lot of dust
we from the west side, where its murder plus
so call me sara bust, up out that other city
where we dont see no pittty, relax and kick it wit me

addicted to a comfort zone im gone way too much
deep in a pile of bills, too busy writin hits
