It's not easy, huh?
I know you're busy
You wonder why you have to come this far
They want so much (I know)
You must want a break
It's all so loud
All so annoying, right?
I bet you want to go home (even when you're home)
I bet you do

At such times, take out this song
Enjoy it like a piece of chocolate
Make sure you eat your meals even if you're tired
Then I'll compliment you later

I miss you
I like you a lot
I want to hug you more often
I feel something like love for you
Maybe I really do love you

When you feel hungry, take out this song
Eat it like a morning apple
Make sure you eat your meals even if you're tired
Then you'll be able to sleep better at night

I'm worn out
By your beauty
Please notice me
Please don't let me pass by
Please love me
Don't let go
