Warming
Global warming
Yeay
Naaah...

Temperature, temperature, temperature...

It's totally summer, hot summer

Even in the autumn or winter
It's still hot
Warming
The earth is hot, warming
Me or you, we're both hot
You're hot from going around places
I'm in the studio, which is a total sauna
Because I'm making hot stuff

Oh...
It's totally global warming
Oh...
Everyone sweats, you good-for-nothing

Warming
It's totally global warming
Warming la
Global warming
Nah
Warming
Global warming
Nananana
Warming
Oh nah
The earth is hot

Don't keep the refrigerator door open
Don't turn on the air conditioner
Set the proper room temperature
Hey you, we're in a big crisis
Yo freon gas is leaking
Save electricity, it's good
Nanana, the earth, nanana
The earth is hot, global warming

Taste the new and strange looking popsicle
This YDG bar will freeze your hotness
This Zion.T bar will drench you
Look at that lady who is blackly fuming
You can't just pass by a place that you like
My butt has always sweated a lot since before

Temperature, temperature, temperature...

Warming
The earth is hot
(Blah blah)...
