

# Broke

Zoe Wees

I can't escape  
All the sticks and stones  
You threw my way  
All the little things that left me feeling oh so alone  
Did you even know?  
It's far too late  
It's too complicated  
I can't take  
Every second that I got you running round my head  
With everything you left unsaid

But what if the bridges we crossed  
Still got footprints of us  
But they're faded  
I know that you stood at the door  
The same look as before  
That you wasted

Please take it slow  
Say you won't let go  
Did you spend all those years we're apart  
Painting over these scars  
Hurt like me  
So go  
If you can't hold me close  
And I know we got lost in the dark  
With the slightest touch  
You unbreak a love you broke

I hold my breath  
Try to fight the pain that's in my chest  
Oh, how I wish that we could fall back to the unknown  
Back to where we started from

But what if the bridges we crossed  
Still got footprints of us  
But they're faded

Please take it slow  
Say you won't let go  
Did you spend all those years we're apart  
Painting over these scars  
Hurt like me  
So go  
If you can't hold me close  
And I know we got lost in the dark  
With the slightest touch  
You unbreak a love you broke

Broke, broke  
Broke, broke  
You unbreak a love you broke

When there's silence all around  
And you hold me like you like you do  
Like you do, no  
If the world comes crashing down

And it's only me and you  
We've got nothing to lose

Please take it slow  
And say you won't let go  
Did you spend all those years we're apart  
Painting over these scars  
Hurt like me  
So go  
If you can't hold me close  
And I know we got lost in the dark  
With the slightest touch  
You unbreak a love you broke

Broke, broke  
Broke, broke  
You unbreak a love you broke
