

# Ghost

Zoe Wees

I remember every part of you  
You're the only one that was hard to lose  
Now it hurts so much and I'm stuck in this hell  
Can't stand up all by myself I'm trying

One more time I wish  
You'd hold me in your arms  
Help me to forgive  
All that you've done wrong  
Lost without your light I can't see myself anymore

You got me looking in the mirror for ghosts  
I can't believe I let you so close  
And now I want to but I can't let you go  
'Cause you left me in this place on my own  
You got me looking in the mirror for  
You got me looking in the mirror for  
Ghosts

Feed me all your lies and you call it truth  
Took me in your arms and you told me you  
You wanted it but you're letting me go  
Can't believe that I gave you control  
I'm tired

You got me looking in the mirror for ghosts  
I can't believe I let you so close  
And now I want to but I can't let you go  
'Cause you left me in this place on my own  
You got me looking in the mirror for  
You got me looking in the mirror for  
Ghosts

You got me looking in the mirror for  
Ghosts I want to but I can't let you go  
'Cause you left me in this place on my own  
You got me looking in the mirror for  
You got me looking in the mirror for  
Ghosts
