

Hold Me Like You Used To

Zoe Wees

Can you feel that cold coming in
That old familiar sting?
When you know they're gone
But you still hold on to the little things
Mama always told me that the ones that leave
They look down on us in golden wings
I wanna believe it
Tell me, do you believe it?

When we lose the ones we love
I was getting used to, used to
Having you with me
So why you gotta leave?
Just hold me like you used to, used to
Are you looking from above?
I didn't want to lose you, lose you
So why you gotta leave?
Need you here with me
Just hold me like you used to, used to

When I lay awake at night
I feel you close to me
Now you're taken from this world
I hope you can finally breath
Mama always told me that the songs I sing will make you proud
So I'm singing this
So do you hear it?
I wanna believe it

When we lose the ones we love
I was getting used to, used to
Having you with me
So why you gotta leave?
Just hold me like you used to, used to
Are you looking from above?
Didn't want to lose you, lose you
So why you gotta leave?
I need you here with me
Just hold me like you used to, used to

I just want to take away, take away
All the pain of yesterday, yesterday
I just want to feel okay, feel okay
I just want to be okay

When we lose the ones we love
I was getting used to, used to
Having you with me
So why you gotta leave?
Just hold me like you used to, used to
Are you looking from above?
I didn't want to lose you, lose you
So why you gotta leave?
I need you here with me
Just hold me like you used to, used to
