

Hold Me

Zoe Wees

Just a little girl with a big dream
Playing in the dirt head up in the clouds
Seeing all those faces on big screens
Praying that someday it'll all work out

Now I got it all
I should be grateful
But this shit is painful
Oh, that little girl with the big dream
Where did she go?

If I tell you now
All these thoughts came back around
And I might be gone
When the lights go out
Oh, would you still hold me?
If I tell you now
One more push and I fall down
I might be gone
When the lights go out
Oh, would you still hold me?
Hold me

I swear to god it all seemed so easy
But I'm hanging out with people that I don't know
Got me feeling lost in this city
Cause I don't have a place that I can call home

God I'm fucking lonely
I should be grateful
But this shit is painful
Oh, that little girl with the big dream
Where did she go?

If I tell you now
All these thoughts came back around
And I might be gone
When the lights go out
Oh, would you still hold me?
If I tell you now
One more push and I fall down
I might be gone
When the lights go out
Oh, would you still hold me?
Hold me

If I tell you now
All these thoughts came back around
And I might be gone
When the lights go out
Oh, would you still hold me?
