

Lifeline

Zoe Wees

Hey, are you okay?
I know that you're hurting
Can tell by your face
Say if you want me to change
Yeah, I'm still learning
It's never too late

Through all the hard times
You were a lifeline
I wish I was like you
Through all the years you
Make it look easier
I know that you tried to
Give your all
Till there's nothing left
Mend your heart
Till it breaks again
Through all the hard times
You were a lifeline
I wish I was like you

Hey, are you alright?
You're kinda distracted
See it in your eyes
Hold on
To everything that you have in front of you
Hold on
Not letting go
Not letting go

Through all the hard times
You were a lifeline
I wish I was like you
Through all the years you
Make it look easier
I know that you tried to
Give your all
Till there's nothing left
Mend your heart
Till it breaks again
Through all the hard times
You were a lifeline
I wish I was like you

You were my lifeline
You were my lifeline
I wish I was like you
You were my lifeline
You were my lifeline
I wish I was like you
You were my lifeline
You were my lifeline
I wish I was like you
You were my lifeline
You were my lifeline
I wish I was like you

Through all the hard times
You were a lifeline
I wish I was like you
Through all the years you
Make it look easier
I know that you tried to
