

Lonely

Zoe Wees

It's gonna be la la la la la la la lonely

I should be the happiest woman ever alive
But right now I don't feel like it, oh I just wanna die
I got some wheels, got those deals, got those credit cards
But all these feels they ain't real, and it's been hittin' hard
Oh no no no oh no
Oh I think you should know
Oh no no no oh no
All that glitter ain't gold

Ooh I can't trust nobody
Ooh oh I just need somebody
Ooh who can love me for being me

Is it love love love love love or are you using me?
I see the dollars in your eyes, and you ain't hard to read
How's the view from the front row?
Tell me now cos I don't know
Is it love love love love love or are you using me?

It's gonna be la la la la la la la lonely
It's gonna be la la la la la la la
It's gonna be lonely

Look to the left, look to the right, you see me everywhere
I finally made my mama proud, don't worry, I be taking care
Change my hair, change my clothes, no matter what I do
There's always one more bitch that's giving me an attitude
Oh no no no oh no
Oh when I'm on the road
Oh no no no oh no
Oh I feel so alone

Is it love love love love love or are you using me?
I see the dollars in your eyes, and you ain't hard to read
How's the view from the front row?
Tell me now cos I don't know
Is it love love love love love or are you using me?

It's gonna be la la la la la la la lonely
It's gonna be la la la la la la la
It's gonna be lonely

Is it love, is it love, is it love
That you want, that you want, that you want?
When I call, when I call, when I call
Would you pick up?
Is it love, is it love, is it love
When you tell me that I'm good enough?
Are you the one, you the one, you the one
To take care of my heart?
Or would you rip it apart?

Is it love love love love love or are you using me?
I see the dollars in your eyes, and you ain't hard to read
How's the view from the front row?

Tell me now cos I don't know
Is it love love love love love or are you using me?

It's gonna be la la la la la la la lonely
It's gonna be la la la la la la la
It's gonna be lonely
