

Overthinking

Zoe Wees

Locked in my head
Can't find the strength to get out of bed
'Cause these days I've been washed out, washed out
I'm running from myself
Losing focus, I've been washed out, washed out
Yeah I've been going through hell

I'm so done with all these sleepless nights
I got all these demons in my mind
And they're haunting me until I overdose
Let me go
Need to get out of this burning cage
Wanna find the key and run away
'Cause I'm over overthinking
I've been over, over, over overthinking

My room feels so small
These walls are closing in
And there's no door
I'm out of space
I've been washed out, washed out
I'm running from myself
Losing focus, I've been washed out, washed out
Yeah I've been going through hell

I'm so done with all these sleepless nights
I got all these demons in my mind
And they're haunting me until I overdose
Let me go
Need to get out of this burning cage
Wanna find the key and run away
'Cause I'm over overthinking
I've been over, over, over overthinking
'Cause I'm over overthinking
I've been over, over, over overthinking
I'm over overthinking
I've been over, over, over overthinking

I wanna get out
(Wanna get out, wanna get out)
I wanna get out
(Wanna get out, wanna get out)
I wanna get out
(Wanna get out, wanna get out)
I wanna get out
(Wanna get out, wanna get out)

I'm so done with all these sleepless nights
I got all these demons in my mind
And they're haunting me until I overdose
Let me go
Need to get out of this burning cage
Wanna find the key and run away
'Cause I'm over overthinking
I've been over, over, over overthinking
'Cause I'm over overthinking
I've been over, over, over overthinking

I'm over overthinking

I've been over, over, over overthinking
